HEAT SURGE®

Roll-n-Glow® EV.2

Amish fireplace with Hybrid-Thermic™ Heat Technology

This is the newest version of the original electric fireplace with the Amish crafted mantle and realistic Hi-Def *Fireless* Flame®. The mantle is built with real American wood crafted by the Amish in the heartland of Ohio. Heat Surge provides the striking visual of realistic fire powered by maintenance-free LED lighting and the bone-soothing warmth of Hybrid-Thermic™ heat technology warming both you and the air around you. On wheels, the Roll-n-Glow provides great maneuverability. This enables you to quickly move your fireplace from room to room, thereby lowering your heating bills and saving money using zone heating in style. With the Heat Surge Roll-n-Glow there is no venting, no chimney and no mess. It comes fully assembled in these stunning finishes: dark oak, light oak, cherry and black; all built to provide years of warmth and beauty.
