## FEATURES

- Your Sunbeam Air Cleaner is designed to provide you with the latest technology and features in portable airfiltering equipment.
- Your Sunbeam Air Cleaner includes a true HEPA filter combined with a pre-foam filter and ionizer to provide you with the most efficient air cleaning product on the market.
- Your Sunbeam Air Cleaner is also designed for today's lifestyle. With its unique 3-way positioning, your Sunbeam Air Cleaner is the perfect match for any room or office. Set it on its base, on its side, or mount it to the wall. In any position it is designed to deliver maximum air cleaning efficiencies.
- The three-speed fan allows you to control the speed of the unit as well, as the sound. Set the unit on High to circulate and clean the air when you are not in the room. Use the medium and low speeds to maintain the clean air while you are in the room.
- Your Sunbeam HEPA Air Cleaner is designed to remove up to 99.97% of airborne particles such as pollen, dust, smoke, spores, and bacteria. This air cleaner will clean a 10'x12 room six times an hour on high speed.
- Your Sunbeam HEPA Air Cleaner comes equipped with an independent ionizer. When the ionizer is switched on, it releases negative ions into the exiting filtered air. These negative ions will eventually come in contact with tiny airborne particles and give them a negative charge. These tiny charged negative particles will either collect on positively charged surfaces such as floors or furniture, or will combine with larger positively charged airborne particles and be filtered out of the air through the air cleaner.

## OPERATING INSTRUCTIONS

1. Make sure air cleaner is placed on a hard stable surface.
2. Plug into a 120V AC electrical outlet.
3. Select the desired speed by turning the knob to the appropriate setting. At this point, the operational light should come on.
4. Push down the ionizer button to release the negative ions into the air. At this point, the ionizer light should come on., Note: it is possible to release the negative ions without the fan being on. We suggest that you turn the fan on along with the ionizer to avoid any particle build up on surfaces close to the air cleaner.
5. Timer feature-(model 2588 only) Push timer button down. This will automatically activate timer, Unit will run for two hours on medium air cleaning efficiency then automatically shut off.

## CLEANING/MAINTENANCE INSTRUCTIONS

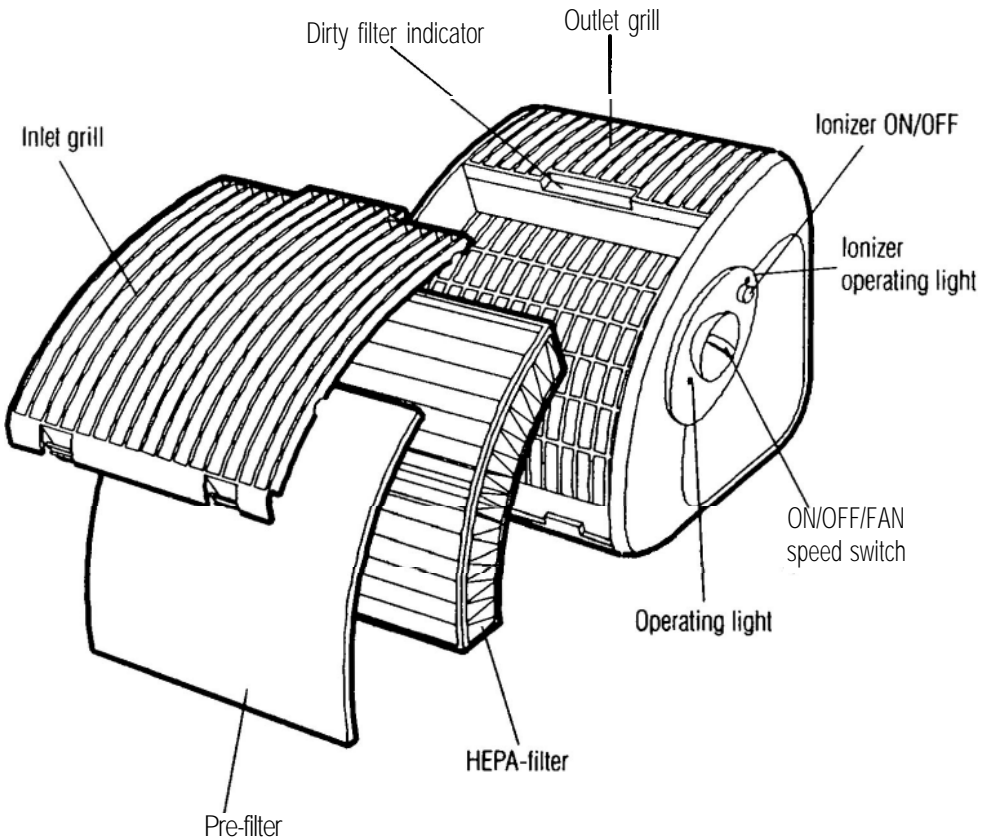

1. Always unplug the unit before cleaning.
2. Outside surfaces can be cleaned with a soft cloth.
3. The inlet grill can be removed and soaked in warm soapy water. It is not dishwasher safe. Dry grill thoroughly before replacing on unit.
4. The outlet grill can be cleaned with a soft cloth or soft brush.
5. Do not submerge in water, or allow water to come in contact with the air cleaner.

# FILTER REPLACEMENT

1. As always, unplug unit prior to opening grill.
2. Open and remove inlet grill by depressing latches of bottom or right side of grill (depending on orientation) and pulling away from air cleaner until hooks near outlet grill come free.
3. Check the appearance of the prefilter to see if there is a visible amount of dust or lint. If so, simply soak the prefilter in warm soapy water and completely dry before replacing in the unit.
4. Check the HEPA filter cartridge to see which condition it matches on the filter indicator located on the housing of the unit near the outlet grill.

*If the filter is brown in color, then it is time to change to a new filter, Remove the HEPA filter and replace it with a new Sunbeam HEPA filter, Model 6613. This filter also comes with a new foam prefilter: Do not attempt to wash the HEPA filter,*

5. Under normal conditions the HEPA filter should last 9-12 months. Frequent cleaning of the pre-filter will help extend the life of the HEPA filter.
6. The replacement HEPA filter and pre-filter, Model 6613 can be purchased from your local supplier. In U.S. call 1-800-597-5978 and in Canada call 1-800-66-SUNBEAM for the supplier nearest you.
