

707 SERIES

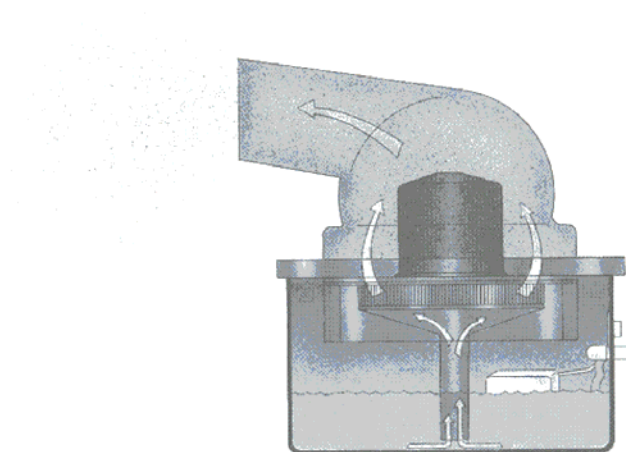

ATOMIZING HUMIDIFIER

Trion offers a line of humidifiers that is both versatile and functional. The 707 Series has three choices for your installation needs: under duct, free-standing and general purpose. Proper humidification is essential for winter comfort and heating efficiency. The 707 Series gives you all the experience and know-how of the company which has spent almost half a century manufacturing air quality products.

FEATURES/BENEFITS

- 24V / 120V / 240V wall or duct mount humidistat, adjustable from 20% to 80% R.H. (707TW only)
- Self-piercing saddle valve
- Easy Assembly – dome fits snugly on top of pan
- Easy Installation – requires a 3 1/2" diameter hole cut into duct
- 2 Year Warranty

How It Works

Centrifugal atomizing humidifiers are installed onto the return duct, where a superfine mist is introduced into the home. There are no pads or filters to change, reducing maintenance time and effort.
