# Refrigeration Cycle Diagram

## • Cooling Only Models

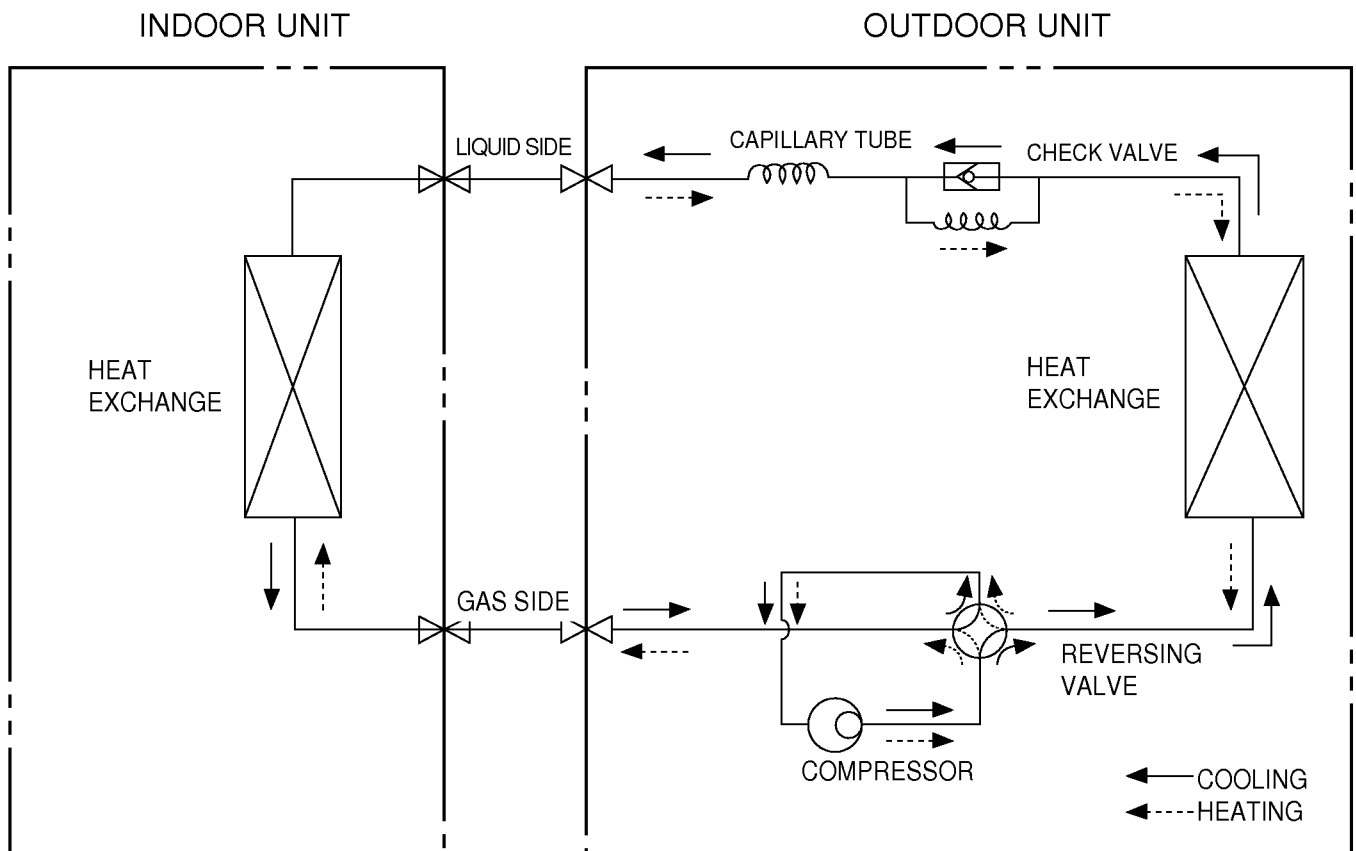

MODEL	Pipe size(Diameter:ø)		Piping length(m)		Elevation(m)	
	Gas	Liquid	Rated	Max	Rated	Max
17K	1/2"	1/4"	7	15	5	8
23K	5/8"	1/4"	7	15	5	8

For installation over rated distance, 40g of refrigerant should be added for each meter.

ex) When installed at a distance of 15m, 320g of refrigerant should be added.

$$(15-7) \times 40g = 320g$$

## • Cooling & Heating Models

MODEL	Pipe size(Diameter:ø)		Piping length(m)		Elevation(m)	
	Gas	Liquid	Rated	Max	Rated	Max
17K	1/2"	1/4"	7	15	5	8
23K	5/8"	1/4"	7	15	5	8

For installation over rated distance, 40g of refrigerant should be added for each meter.

ex) When installed at a distance of 15m, 320g of refrigerant should be added.

$$(15-7) \times 40g = 320g$$
