Direct Vent Gas Stoves

Add Vermont Castings beauty and quality to your home with a classic direct vent stove. Engineered with cast-iron strength and built to perform the way every Vermont Castings' stove performs . . . beautifully.

The impeccably smooth finish of each Vermont Castings gas stove is a credit to the sophisticated manufacturing process unique to Vermont Castings. With both the foundry and enameling facilities located within just a few miles of each other in Vermont, we're able to ensure that our production and finishing processes are maintained at the highest quality, producing industry-leading results.

Ultimate Comfort

Found on the Radiance and Stardance the Total System Control modulates the fan and flame with one hand held remote. The TSC hand held remote features LED backlighting, temperature display, ON indicator, low battery indicator, thermal shutdown and childproof lock.

- No additional fan required
- Three level modulation of flame and fan
- Fan system has ON/OFF timed delay for the most efficient heat output
- In thermostat mode the system shuts off once desired temperature is met, for maximum efficiency

Featuring

FireCast

"FireCast" burner delivers "Top in Class" dancing flame and intense radiant glow
