

Even More Reasons Why a Cirrus Vacuum Cleaner is your BEST choice.

Micron Filtration

The Cirrus uprights have multi-stage Micron filtration featuring HEPA type filter bags, electrostatic exhaust filters and HEPA rated filters (see detailed specifications) to provide cleaner air in your home and better cleaning performance.

Solid Construction with Metal Parts

Cirrus vacuum cleaners have metal motors with ball bearing construction; metal agitators for long life, metal pivot points and many other metal parts where critical wear items require durable materials. Today many lesser quality vacuum cleaners use cheap plastic where they should use metal. Quality is NOT compromised in Cirrus vacuum cleaners!

TWO YEAR WARRANTY

Your Cirrus vacuum is backed by a full TWO YEAR Limited WARRANTY. Cirrus Trading LTD. warrants that your Cirrus cleaner, for a period of two years from your date of purchase, will be free from all defects in material and workmanship for normal household use in accordance with the Owner's Manual. This limited warranty is granted only to the original purchaser. This limited warranty is subject to certain provisions as stated in the complete warranty statement included with each Cirrus vacuum cleaner.

PROFESSIONAL GRADE

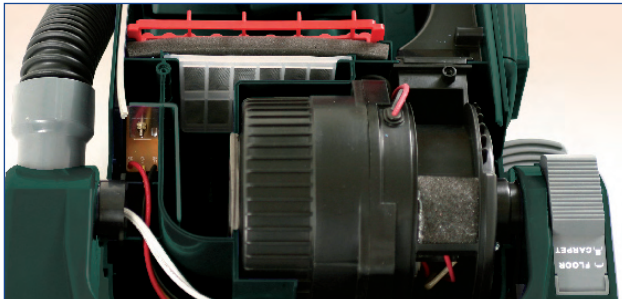

Why a Cirrus Vacuum Cleaner is your BEST choice today

On-Board Tools

All models featuring quick draw style on-board tools boast a complete set of cleaning tools for all the little hard to reach places. Never waste time looking for your attachments again. The stretch hose and telescoping wands reach up to 10 feet.

Ametek Motors in a Sealed Chamber The Heart of the Cirrus Upright

Cirrus vacuum cleaners use only the best motors from AMETEK Electric, to insure long life and trouble free performance. These durable motors are installed in a sealed chamber to assure that the dust is exhausted through the filter NOT out of the seams of the vacuum cleaner. This gives you a cleaner home and less dust emissions!

Exclusive Touch 'N' Go

Effortless switching from carpet to hard floors cleaning with the touch of a toe - just Touch 'N' Go from one room to the next. Saves time and eliminates bending and stooping.

Ergonomic Handle

The ease and comfort of the ergonomic handle grip makes vacuuming a pleasure. The Durable ABS material assures it will last. Special switch guard minimizes risk of accidentally engaging switch. The quick release cord hook provides for easy, quick cord access to save effort and time.

Comparison of Features & Specifications By Model
