

Breezair MobileMAX™

The mobile evaporative cooler that rolls wherever it's needed:

- Warehouses
- Repair/maintenance areas
- Construction sites
- Shipping/receiving docks
- Sports centers
- Agricultural facilities
- Manufacturing centers
- Aircraft hangars
- Storage areas
- Laundries/dry cleaners
- Commercial kitchens

Breezair™

MobileMAX:™ instant spot-cooling on wheels.

MobileMAX rolls wherever it's needed to bring up to 8,500 cfm of instant cooling to large work areas. As it cleans the air, MobileMAX filters out dust, pollen and contaminants, and helps increase employee productivity.

Made of tough, all-structural UV-protected structural polymers, MobileMAX won't ever rust, corrode, fade or crack. A 26-gallon water reservoir allows continuous operation for up to 8 hours. MobileMAX can also be plumbed to a dedicated water line – or connected to a garden hose. An easy-to-access drain plug makes flushing and cleaning simple.

In facilities as large as 3,500 square feet – even with the doors and windows open – MobileMAX works its magic. Best of all, it consumes up to 80% less energy than refrigerated air conditioning, so the cost savings are tremendous!

Exclusive Warranty

- Cabinets guaranteed corrosion-free for 25 years
- Structural components guaranteed for 10 years
- Pump, motor & junction box guaranteed for 2 years

How Evaporative Cooling Works.

Water needs heat to evaporate. So evaporative cooling draws air from outside and pulls it through cool, water-saturated pads. Natural evaporation cools the air while the pads filter out dust, pollen and other contaminants. The result: cooler, cleaner, fresher air without fluorocarbons or potentially toxic chemicals used in refrigerated air conditioning.

SPECIFICATIONS	MobileMAX 2	MobileMAX 3
Width (inches):	40	40
Depth (inches):	41	41
Height:	41*	53* *Add 5" height for shipping pallet
Dry weight:	188 lbs	210 lbs
Fan Motor (Watts):	560	750
Fan Motor (HP):	3/4 hp	1 hp
Capacity (CFM):	6,500	8,500
Typical Floor Area ft²:	2,500	3,500
Motor Speed:	2-speed	2-speed
