

HEAT SURGE®

Roll-n-Glow® EV.2

Amish fireplace with Hybrid-Thermic™ Heat Technology

This is the newest version of the original electric fireplace with the Amish crafted mantle and realistic Hi-Def *Fireless Flame*®. The mantle is built with real American wood crafted by the Amish in the heartland of Ohio. Heat Surge provides the striking visual of realistic fire powered by maintenance-free LED lighting and the bone-soothing warmth of Hybrid-Thermic™ heat technology warming both you and the air around you. On wheels, the Roll-n-Glow provides great maneuverability. This enables you to quickly move your fireplace from room to room, thereby lowering your heating bills and saving money using zone heating in style. With the Heat Surge Roll-n-Glow there is no venting, no chimney and no mess. It comes fully assembled in these stunning finishes: dark oak, light oak, cherry and black; all built to provide years of warmth and beauty.

Roll-n-Glow® EV.2

HEAT SURGE®
THE ORIGINAL

This is the famous fireplace with the Amish crafted mantle and realistic Hi-Def Fireless Flame®. The mantle is built with real American wood construction, no particle board is used. All of the woodwork is handmade by the Amish in the heartland of Ohio.

Hide-away controls and remote

Features and Benefits

- Quality woodwork, mantles are handmade and hand-finished by the Amish
- Save money with zone heating by rolling from room to room and lowering house thermostats
- Hybrid-Thermic™ heat technology promotes fast and even distribution of heat throughout the room
- Patent Pending Cool Vent technology optimizes heat flow into the room while keeping the fireplace cool
- The most realistic flame yet with Hi-Def Fireless Flame® technology powered by energy saving and maintenance free LED lights. No smoke, no fumes, no mess, no vent
- Includes an easy to use remote control that adjusts both the heat and flame
- Hide-away remote and controls for a sleek style
- Comfort control with included thermostat
- Fully assembled, just plug it in
- Optional: AYR™ Filtration System cleans indoor air

Specifications

- Insert & Mantle: 29.25"W x 25.75"H x 9.5"D (Metric: 74.3W x 65.4H x 24.1D)
- Grounded 3-prong plug, electrical cord is 6 feet
- Mantles made in Ohio (Insert made in China)
- Unit protected from power surge with a 15 amp Internal Circuit Breaker
- Includes a reset switch, located on back
- Features a built-in 45 degree tip over sensor that will turn the unit off automatically

High Setting

- 1,500 watts, 4,606 BTUs, 1.5 kilowatt hours
