APN14K

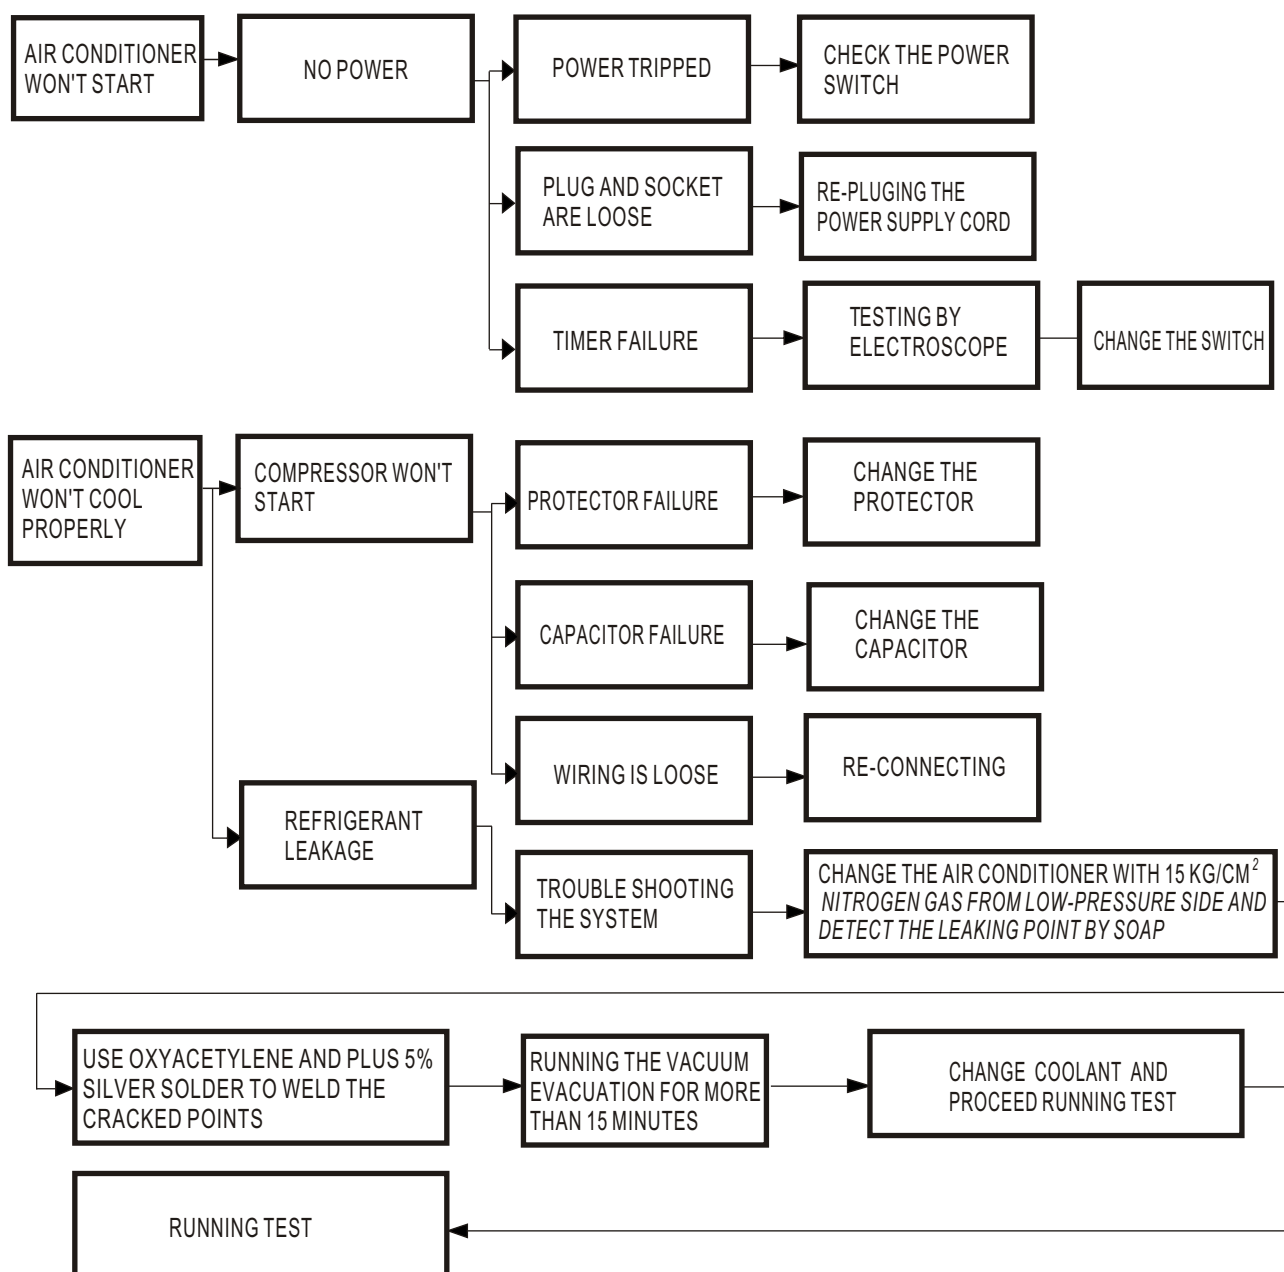

IMPORTANT POINTS ON SERVICE OPERATING SAFETY

Please follow these instructions carefully :

- Unplug the unit to avoid any danger from electric shock before disassembling the unit for repair.
- If there is any sound of the refrigerant circulating when in operation, avoid touching the cooling coils.
- If you need to perform any welding or soldering, be sure you are in a well ventilated area.
- Only a qualified professional should perform any welding on the unit.
- When repairing the unit, the specifications listed in this manual must be strictly adhered to when replacing any components.
- When replacing any electrical components they should be factory approved units.
- Be sure that any electrical components are properly wired and in place.

FLOW CHART FOR INSPECTING AND REPAIRING THE UNIT

Do not run and water full indicator lights	<ul style="list-style-type: none">· Drain the water into a prepared container by the drainage pipe on the rear panel of the unit.· If still doesn't work, please consult a qualified technician.

APPEARANCE

UNIT DIMENSIONAL

OPERATION

Indication symbols on LCD :

- Cooling mode
- Dehumidify mode
- Fan only mode
- Display set temperature
- Warning light the machine will stop running
- Display timer setting of auto switch on/off
- High fan speed
- Med fan speed
- Low fan speed

Power Control

The power control turns the unit on and off.

Warning Light

Condensed water may accumulate in the unit. If the internal tank becomes full, the Warning Light will shine and the unit will not operate until the unit has been drained.

Mode Control

The Mode Control has three settings:

● Cool ● Dehumidify ● Fan

The settings are adjusted with Mode Control button. A light will indicate which setting is currently being used.

● Cooling Mode

When cool mode is selected, the indicator light will shine green. During the cooling mode the air is cooled and hot air is exhausted to the outside air through the exhaust tube. Adjust fan speed air through the temperature to suit your desired comfort level.

Note : The air exchange hoses must vent outside the room when using cool mode.

● Dehumidify Mode

When dehumidify mode is selected, the indicator light will shine orange. Air is dehumidified as it passes through the unit, without being in full cooling mode. The fan will operate in med speed. Fan speed is not adjustable in dehumidify mode.

Note : The air exchange hoses must vent inside the room when using dehumidify mode.

● Fan Mode

When fan mode is selected the indicator light will shine yellow. Air is circulated throughout the room with no cooling.

Note: unit does not need to be vented in Fan mode

Fan Speed Control

The Fan Speed Control has 3 settings: High, Medium, and Low.

Timer

Auto turn off :

With machine in fan mode, press timer button to select number of hours you would like the unit to run in air conditioning mode until it automatically shuts off.

Auto turn on :

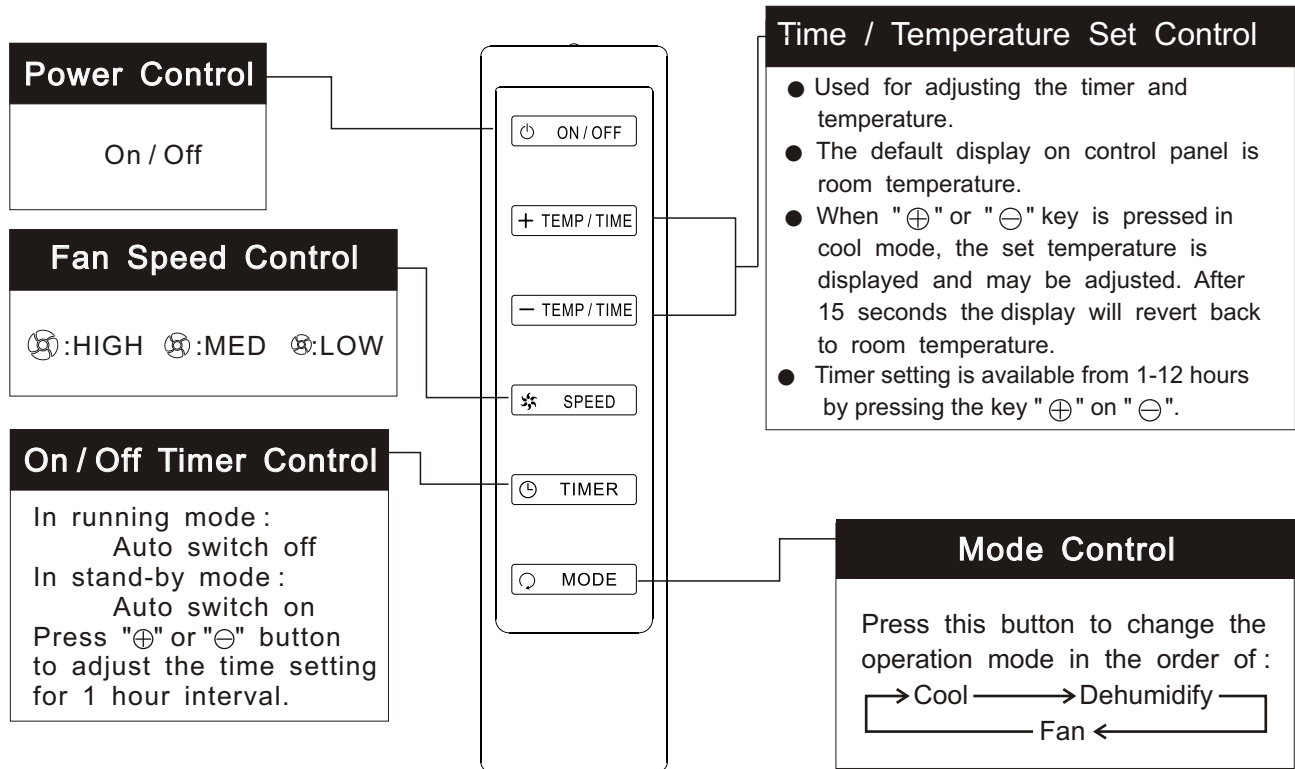

With machine powered off, press timer button to select number of hours until you would like the unit to automatically start running in air conditioning mode.

Timer / Temp set controls

- Used for adjusting the timer and thermostat.
- The default display is room temperature.
- In cooling mode, when " " or " " button is pressed, the set temperature is displayed and may be adjusted. After 15 seconds the display will revert back to room temperature. Temperature is only adjustable in cool mode. The time is adjustable between 1~24 hours. Note : By pressing both Timer / Temp set buttons at the same time, the display will toggle between Celsius and Fahrenheit.

OPERATION

CONTROL PANEL

Notes

- Do not drop the remote control.
- Do not place the remote control in a location exposed to direct sunlight.
- The remote control should be placed about 1 meter or more away from TV, or any electric appliances.

Battery replacement : Remove the cover on the back of the remote control and insert the batteries with the (+) and (-) poles pointing in the proper direction.

CAUTION

- Use only AAA or IEC R03 1.5V batteries.
- Remove the batteries if the remote control is not used for a month or longer.
- Do not attempt to recharge the supplied batteries.
- All batteries should be replaced at the same time, do not mix old battery .
- Do not dispose of the batteries in a fire as they may explode.

TECHNICAL SPECIFICATIONS

ITEM	UNIT	WAP-41DR (APN14K)	
OUTER DIMENSION	mm	510W*855H*424D	
REFERENTIAL USING AREA	m ²	13~19	
RATED VOLTAGE	V/Hz	115 / 60	
COOLING CAPACITY	B.T.U.	14000	
HEATING CAPACITY	B.T.U.	—	
DEHUMIDIFYING CAPACITY	L/H	1.8	
RUNNING CURRENT	A	10.8	
POWER CONSUMPTION	W	—	
COMPRESSOR	MODEL		44N100-A2-BCAD
