

ASSEMBLY/ ASSEMBLAGE/ ARMADO

NOTE: DO NOT over tighten screws and washers that come into contact with porcelain coated surfaces. Over tightening may cause the porcelain coating to crack and break, resulting in exposed metal that will be prone to rust.

REMARQUE: NE serrez PAS excessivement les vis et les rondelles qui sont en contact avec les surfaces au revêtement en porcelaine. Un serrage excessif peut fissurer ou briser le revêtement en porcelaine, entraînant l'exposition du métal qui pourrait rouiller.

Nota: NO apriete demasiado los tornillos y arandelas que entren en contacto con las superficies revestidas de porcelana. Si los aprieta demasiado, se puede quebrar y romper el revestimiento de porcelana lo que dejará expuesto el metal al proceso de oxidación.

1

#10-24x1-1/4" Machine Screw
Qty. 1
Vis à métaux n° 10-24x1¼ po
Qté: 1
Tornillos No. 10-24 x 1-1/4"

CAUTION

Cylinder valve must face to front of cart once tank is attached. Failure to install cylinder correctly may allow gas hose to be damaged in operation, resulting in the risk of fire.

ATTENTION

Le robinet du réservoir doit être orienté vers le devant du chariot une fois le réservoir fixé en position. Une mauvaise installation du réservoir pourrait endommager le tuyau à gaz, créant un risque d'incendie.

ADVERTENCIA

Una vez que el tanque haya quedado instalado, la válvula del tanque debe quedar orientada hacia la parte delantera del carrito. Si no se instala correctamente el tanque, se puede dañar la manguera de gas durante el suministro, lo que puede ocasionar el riesgo de incendio.
