# NOTES

Stk It is recommended that stock be maintained for this part.

N/A Not Applicable

- 1 This compressor should be replaced with the designated Copleland scroll (55-102045 series) and the specified Retrofit Kit. **USE OF THE RETROFIT KIT IS REQUIRED WHEN PERFORMING THIS REPLACEMENT.** Failure to use the kit will greatly increase the likelihood of future compressor failure and will void the compressor warranty.
- 2 The reversing valve specified for 048 and 060 models may be different than the one originally supplied with the equipment. The use of the specified valve is recommended for improved shifting performance.
- 3 This low pressure switch should only be used with units manufactured after the effective date shown. It is not compatible with the Defrost Control Board used on units manufactured before this date.
