## HARDWARE SERIES

**PERFORMANCE GAUGE:**  
Registers the airflow through the vacuum. When airflow lessens, the suction power is reduced. When the needle goes down to yellow or red, it's time to check the filters or hose for a possible clog.

**EXTRA LARGE HOSE HOLDER:**  
Wrap your hose conveniently and easily around the motor housing when you're not using your vacuum. The hose holder keeps the hose in place for convenient storage.

**REAR BLOWER PORT:**  
Just remove the tethered cap and attach the vacuum hose to the rear blower port and you've got yourself a power blower. Blow away sawdust from stationary tools, or leaves & lawn debris from sidewalks or patios.

**LOCK-ON HOSE®:** For eliminating unwanted hose disconnections.

**POWERFUL BY PASS MOTOR:** For picking up the toughest messes. Wet or dry – indoors or out.

**ACCESSORY STORAGE:** Keeps your tools organized and always on-hand. Accessory storage varies per model.

# shop·vac®

## HARDWARE SERIES SVX2

The SVX2 advanced motor technology creates a vacuum with more power and longer motor life. These vacuums have a 50% increase in air watts; when compared to a Shop-Vac® brand vacuum not containing the SVX2 motor technology.<sup>§</sup>

**PERFORMANCE GAUGE:** Registers the airflow through the vacuum. When airflow lessens, the suction power is reduced. When the needle goes down to yellow or red, it's time to check the filters or hose for a possible clog.

**EXTRA LARGE HOSE HOLDER:** Wrap your hose conveniently and easily around the motor housing when you're not using your vacuum. The hose holder keeps the hose in place for convenient storage.

**REAR BLOWER PORT:** Just remove the tethered cap and attach the vacuum hose to the rear blower port and you've got yourself a power blower. Blow away sawdust from stationary tools, or leaves & lawn debris from sidewalks or patios.

**TANK DRAIN:** Easy screw on/off tank drain cap lets you empty your heavy tank of water quickly and neatly without making another mess.

**ACCESSORY STORAGE:** Keeps your tools organized and always on-hand. Accessory storage varies per model.

**LOCK-ON HOSE®:** For eliminating unwanted hose disconnections.

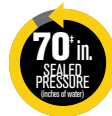

### MORE POWER<sup>§</sup>

### LONGER MOTOR LIFE<sup>§</sup>

†“Peak Horsepower” (PHP) is a term used in the wet-dry vacuum industry for consumer comparison purposes. It does not denote the operational horsepower of a wet-dry vacuum but rather the horsepower output of a motor, including the motor's inertial contribution, achieved in laboratory testing. In actual use, Shop-Vac motors do not operate at the peak horsepower shown.

\*Tank capacity refers to actual tank volume, and does not reflect capacity available during operation.

‡ASTM Tested with a 8 ft. long x 2½ in. diameter Shop-Vac<sup>®</sup> hose.
