FURNACES GAS SERIES 9500 0

> 9500 SERIES GAS FURNACES napoleon.com

MODULAR INDIVIDUAL COMPONENTS

Napoleon's innovative modular design allows for easy handling, and cleaning. With a removable heat exchanger and blower compartment, servicing a Napoleon furnace is a whole new experience.

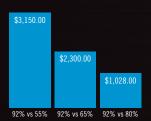

ENERGY SAVINGS & COMFORT

ANNUAL FUEL UTILIZATION EFFICIENCY (AFUE)

AFUE works much like the miles-per-gallon rating on a car - the higher the rating, the lower the fuel costs. The Annual Fuel Utilization Efficiency (AFUE) measures the amount of comfort for every dollar spent. If a furnace is 25 years old or older, it could have a rating as low as 55% to 65% AFUE.

95% + AFUE TRANSLATES
INTO SIGNIFICANTLY LOWER
FUEL BILLS

Cost Comparison of Operating Your Furnace Over Five Years

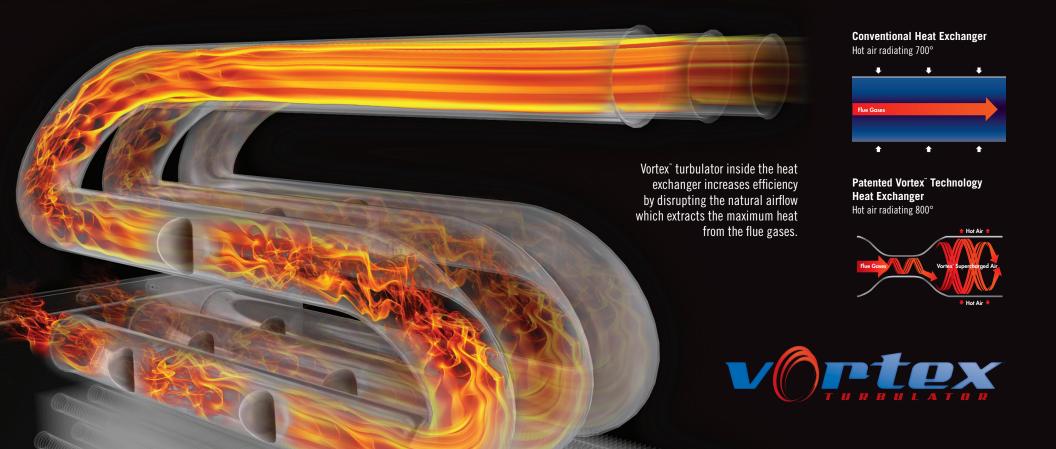

THINK DIFFERENT. THINK NAPOLEON.

Napoleon's 9500 Series gas furnace is one of the smallest on the market. With today's households striving to achieve the highest energy savings, the 9500 Series is the perfect fit. Offering a variety of sizes that feature an EnerSave motor, it's easy to pair one to your home.

Napoleon's 9500 Series' boasts WHISPER QUIET™ operation, superior engineering and a sleek design. You'll enjoy the comforts of the 9500 Series gas furnace as it provides reliable, safe and efficient heat all winter long.

That's Napoleon.

EFFICIENT TECHNOLOGY

Napoleon's 9500 Series NPX models feature a EnerSave Pro motor which reduces electrical consumption by up to 80%. On continuous fan speed, the EnerSave Pro motor only consumes 60 - 80 watts compared to the 400 watts consumed by other motors.

FUTURE READY

WIFI CAPABLE

Napoleon's 9500 is compatible with smart thermostat technology. Easily paired with a wide variety of thermostats and control boards, the 9500 is compatible with your home.

Designed to be 'Whisper Quiet", one of the smallest 95% + AFUE furnaces on the market.

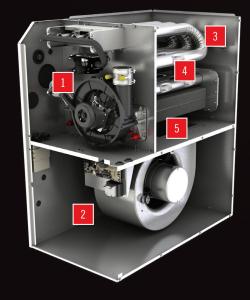

OUR DIFFERENCE IS IN THE DETAILS 5 WAYS TO COUNT ON THE BEST

1 Aluminized Multi-Port in Shot Burners

- · Corrosion resistant burners
- Perfectly shapes the flame cone for maximum flame efficiency

2 Self Diagnostic Integrated Furnace Control (IFC)

- Contains LED service indicator lights to ensure quick and accurate service diagnosis
- · Constantly monitors all safety devices
- Interfaces with additional home comfort products using simple plug-in connections
- · Mounted between the blower rails for easy accessibility
- Integrated Furnace Control board manages all operational functions and accommodates hook-ups for a humidifier, HRV, and electronic air cleaner
- Self-diagnostic Integrated Furnace Controls (IFC) is mounted between the blower rails for easy accessibility

Heat Exchanger Compartment

 Thermally insulated heat exchanger compartment for quiet operation and reduced clearance to combustibles

4 Corrosion Resistant Heavy Gauge Aluminized-Steel Tubular Triple-Pass Heat Exchanger

- Controlled wrinkle-bend design of heat exchanger creates tubes with consistent thickness and no weak areas
- Highly-efficient triple pass tubular design has a large surface area to maximize heat transfer
- Each row of tubes is offset to increase turbulence in the airflow and maximize heat transfer

5 Stainless Steel Heat Recovery Coil

- Extracts the remaining heat from the flue gases once they exit the triple-pass heat exchanger
- Increases efficiency by evenly distributing the remaining heat to the coil's large fins
- The Heat Exchanger is backed by our President's Limited Lifetime and Limited Replacement Guarantee for your peace of mind

INSTALLATION OPTIONS FLEXFIT FOR CONVENIENCE

Napoleon's 9500 Series offers zero clearance in all positions, providing installation ease in closets and alcoves with no additional kits required. Manufactured for natural gas, with the option of simple conversion to propane. Napoleon's 9500 Series is one of the smallest 95% AFUE furnaces on the market.
