

Technical Specifications

13, 14 & 16 SEER SPLIT SYSTEM AIR CONDITIONERS (REV-B)

Conforms to UL Standard 1995. Certified to CAN/CSA Standard C22.2 No.236.

- 13, 14 and 16 SEER efficiencies
- Capacities ranging from 1.5 tons to 5.0 tons
- Environmentally friendly R-410A refrigerant
- High Efficiency Compressors
- Micro-Channel Condenser
- Swept Fan Blades
- Permanently lubricated PSC motor
- Motor assembly is removable from top of unit
- Service valves and refrigerant connections are located outside the cabinet for easy accessibility and servicing
- Electrical connections are accessible through a removable service panel

FEATURES AND BENEFITS

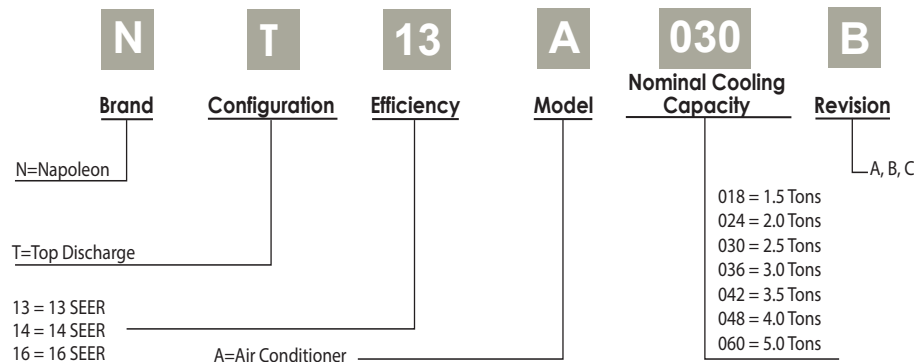

Advanced micro-channel coil technology

Napoleon Air Conditioners are made with superior micro-channel condenser coils that wrap around the inside of air conditioner and house the refrigerant. The coils are compact, allowing for a smaller air conditioner size while using substantially less refrigerant. The condenser coils are all aluminum, easy to maintain and are less susceptible to corrosion as are the bimetal tube and fin coils.

Environmentally Responsible

Napoleon air conditioners are made with the environmentally conscious, chlorine-free refrigerant R-410A. By using a refrigerant that is chlorine-free, Napoleon air conditioners do not contribute to ozone depletion.

NOMENCLATURE

COMPONENTS

1. SIDE PANELS

- Vertical extruded slots on the side panels protect the interior of Napoleon air conditioner while allowing the right amount of air flow
- Powder coated cabinet panels withstanding 1000 hours of salt spray testing

2. MICRO-CHANNEL COILS

- Compact all-aluminum coils allow for smaller air conditioner size

3. VENTURI

- Integral to the housing, a deep venturi is used in conjunction with the swept fan blade to provide more efficient air flow

4. SWEPT FAN BLADES

- Contoured blades provide quieter operation
- Produces efficient air flow
- Fans are made up of 4 or 2 fan blades to accommodate the unit cooling capacity

5. SCROLL COMPRESSOR

- Industry leading compressor brand
- Low vibration and quiet operation
- Contains built-in safety features
