

**NOTE:** To prevent vomiting by gill pumping, install a cassette.

**⚠ DANGER**

Removal of any bar or part of any part of the front panel may result in the front panel falling off the cart. This could result in injury to the user or damage to the cart. To prevent this, always use the correct removal procedure as shown in the diagram.

The instructions in this manual are for the front panel. For the front panel, please refer to the front panel manual for the correct removal procedure.

**1** **Remove upper front panel**

Remove the front panel by pulling it upwards. The front panel will be held in place by the front panel clips. To remove the front panel, pull the front panel upwards until the front panel clips are released. The front panel will then be held in place by the front panel clips. To remove the front panel, pull the front panel upwards until the front panel clips are released. The front panel will then be held in place by the front panel clips.

**2** **Remove upper front panel**

Remove the front panel by pulling it upwards. The front panel will be held in place by the front panel clips. To remove the front panel, pull the front panel upwards until the front panel clips are released. The front panel will then be held in place by the front panel clips. To remove the front panel, pull the front panel upwards until the front panel clips are released. The front panel will then be held in place by the front panel clips.

**3** **Do not attempt to lift cart until front panel is attached. The front panel stabilizes the cart.**
